

Internship Report
Of
IT AND DIGITAL SCHOOL MANAGEMENT

Submitted

To

School of Computer Science and Engineering
IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of
B.Tech CSE

By

Roll Number of Student: CS-23411075

Name of Student: MAHIR MEHRAJ

Batch: 2026–27

CANDIDATE'S DECLARATION

I, Mahir Mehraj, do hereby declare that the internship report titled “IT and Digital School Management” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering. All the references have been quoted and I have not taken as such any material from any other source. I affirm that this report is my own work and has not been submitted to any other institute for any degree/diploma requirement, and I shall be solely responsible for any kind of copyright violation in this regard.

ACKNOWLEDGEMENT

I am using this opportunity to express my gratitude to everyone who supported me throughout my internship at Gulzar Memorial Educational Trust, Nowpora Kalan, Sopore. I am thankful for their aspiring guidance, invaluable constructive feedback, and friendly advice extended to me during the course of this internship.

I would like to sincerely thank the Principal and the administrative staff of Gulzar Memorial Educational Trust for granting me the opportunity to undertake this internship in IT and Digital School Management, and for their continuous support and encouragement throughout the 30-day programme conducted from 01-06-2026 to 01-07-2026.

I would also like to thank my faculty at IILM University, Greater Noida, for their guidance in shaping this report, and I express my heartfelt gratitude to my parents for their constant blessings and support.

INTERNSHIP COMPLETION CERTIFICATE

GULZAR MEMORIAL EDUCATIONAL TRUST		Ph: 01954 - 221000
		گلزار میموریل ایجوکیشنل ٹرسٹ
Nowpora Kalan Sopore - 193201 Kashmir E-Mail: gulzar2004@gmail.com Website: www.gmetjk.org		
No. : 1275 / e.m.e.t / NDR / 26	Date : 06-07-2026	
INTERNSHIP CERTIFICATE		
TO WHOMSOEVER IT MAY CONCERN		
This is to certify that Mr. Mahir Mehraj, student of B.Tech (CSE), IILM University Greater Noida has successfully completed a 30-Day Internship Program in IT and Digital School Management at Gulzar Memorial Educational Trust Nowpora Kalan Sopore from 01-06-2026 to 01-07-2026.		
During the internship period, Mr. Mahir Mehraj worked on IT support, digital data management, computer laboratory management, and school information systems. He was actively involved in maintaining digital records, assisting with computer-related activities, organizing student data, preparing reports, and providing technical support to staff and teachers.		
His valuable contributions included data organization, Excel-based record management, basic troubleshooting, computer lab support, digital documentation, and assisting in the management of the school's digital systems. His dedication, professionalism, and commitment towards assigned responsibilities were highly appreciated by the organization.		
We sincerely appreciate his efforts and wish him every success in his future academic and professional endeavours		
 Principal Gulzar Memorial Educational Trust Nowpora Kalan Sopore		

4. PROJECT DESCRIPTION

4.1 Introduction

This report presents an account of the 30-day internship undertaken by Mahir Mehraj, a B.Tech (Computer Science and Engineering) student of IILM University, Greater Noida, at Gulzar Memorial Educational Trust (G.M.E.T.), Nowpora Kalan, Sopore, Kashmir, from 01-06-2026 to 01-07-2026. The internship was carried out in the domain of IT and Digital School Management, and was designed to provide practical, hands-on exposure to the day-to-day technological and administrative operations of an educational institution.

The internship exposed the intern to real-world applications of information technology in a school environment, including IT support, computer laboratory management, digital record-keeping, and the maintenance of school information systems. It provided an opportunity to bridge classroom knowledge of computer science with practical, on-ground implementation, while also developing professional skills such as documentation, communication with staff, and time management.

4.2 Organization Profile

Gulzar Memorial Educational Trust (G.M.E.T.) is an educational institution located at Nowpora Kalan, Sopore, in the Kashmir region, dedicated to imparting quality education and fostering holistic development among students. The Trust manages the school's academic and administrative functions, and increasingly relies on digital tools and systems to manage student records, communications, and day-to-day school operations.

The organization places strong emphasis on modernizing its administrative infrastructure, which includes maintaining computer laboratories for student use, digitizing student and staff records, and ensuring smooth functioning of IT-enabled systems that support both teaching staff and school management.

4.3 Problem Statement

Prior to the internship, several school records and administrative processes at G.M.E.T. were maintained in a partially manual or unorganized digital format, resulting in inefficiencies in data retrieval, record maintenance, and reporting. There was a need for structured digital documentation, organized Excel-based record management, and

reliable technical support for the school's computer systems and laboratory to ensure smoother day-to-day functioning.

4.4 Project Objectives

The key objectives of the internship were as follows:

- To assist in the maintenance and organization of digital records of the institution.
- To provide IT support and basic troubleshooting for computers and peripheral devices used by staff and students.
- To manage and support the school's computer laboratory, ensuring systems remained functional and available for use.
- To organize student data and maintain it in a structured, easily retrievable digital format.
- To prepare periodic reports for the school administration using digital tools.
- To assist in maintaining and supporting the school's overall information systems.

4.5 Scope of the Project

The scope of the internship was limited to the IT and digital administrative functions of Gulzar Memorial Educational Trust, Nowpora Kalan, Sopore, over a period of 30 days. The work primarily covered IT support activities, computer laboratory management, digital documentation, Excel-based record management, and assistance with the school's information systems. The internship did not extend to the design or development of new software systems, but focused on the practical application, maintenance, and support of existing digital infrastructure within the school.

4.6 Technologies and Tools Used

During the internship, the following tools and technologies were primarily used:

- Microsoft Excel — for organizing and managing student and administrative records.
- Microsoft Office Suite (Word, Excel) — for preparing reports and documentation.

- Desktop and laboratory computer systems — for troubleshooting and technical support.
- Basic networking and peripheral devices (printers, scanners, projectors) — for IT support tasks.
- School information/record management systems used by the institution for administrative purposes.

4.7 System Architecture

The digital ecosystem at G.M.E.T. during the internship period comprised the school's computer laboratory systems, standalone administrative computers used by staff for record-keeping, and Excel-based repositories used to store and manage student and institutional data. IT support activities were carried out at the level of individual systems and the local computer laboratory setup, with digital records being centrally organized and maintained for easy access by the school administration. While the environment did not involve a complex networked or cloud-based architecture, the internship provided practical insight into how a small-to-medium scale institution structures and manages its digital resources at the system and file-management level.

4.8 Methodology

The internship was carried out using a structured, task-based approach that included the following steps:

- Orientation and understanding of the existing digital infrastructure and record-keeping practices at the institution.
- Identification of areas requiring digital organization, troubleshooting, or support.
- Assisting with computer laboratory management, including basic maintenance and troubleshooting of hardware and software issues.
- Organizing and updating student and administrative data using Microsoft Excel.
- Preparing digital documentation and periodic reports for the school administration.
- Providing ongoing technical support to teaching and administrative staff as required.

- Regularly reviewing completed tasks with the concerned staff to ensure accuracy and completeness.

4.9 Expected Outcomes

Upon completion of the internship, the following outcomes were achieved:

- Improved organization and accessibility of student and administrative digital records.
- Reduced downtime of computer laboratory systems through timely troubleshooting and support.
- Streamlined Excel-based record management for the school administration.
- Enhanced digital documentation and reporting practices within the institution.
- Strengthened technical support mechanisms for staff and teachers.
- Practical, hands-on experience in applying IT and computer science knowledge within a real institutional setting.

4.10 Certificate of Completion

The Internship Completion Certificate issued by Gulzar Memorial Educational Trust, Nowpora Kalan, Sopore, certifying the successful completion of the 30-day internship by Mahir Mehraj in IT and Digital School Management, is attached in this report (see the Internship Completion Certificate section).
